

THE PROBLEM

Small doctors' offices cannot survive the economics of today's healthcare business. Medicine has become a commodity to be bought and sold at highly inflated prices. Patients are having to shoulder more of the financial costs, which they can't afford. Patient's concerns are undervalued.

THE SOLUTION

Direct Primary Care practice. Well priced, personal, and developed with the patient in mind.

Modern medicine with old-fashioned values.

360-736-0771

Paul Williams, M.D. ABFM
Lisa Neff, D.O. ABFM

Patient Information

www.washingtonpark.md

Young and working age will like:

- Low monthly fees
- Ability to text, email, phone their doctor
- Same day/next day appointments
- All symptoms dealt with on one day, not multiple visits
- Substantially lower priced medications, labs, radiology studies
- Get your medicine here when ill instead of waiting in line at a pharmacy
- Physical exams today or tomorrow not a month or two in the future
- Can pay with your HSA (health savings account)
- No copays

Older or retired will like:

- Physical exams are included
- Filling medications, dealing with multiple problems can be taken care of on the same day
- Longer visit times
- Home visits if too ill to come in (see website for details)
- See your doctor at each visit and talk with them if needed after the office is closed

Businesses will like:

- Bridges the gap between the high deductible plans and the costs to their employees
- Significantly increases employees' satisfaction with their healthcare coverage
- Healthy employees = less sick time, greater production
- We can also set up a wellness program and manage it at your place of business

Everyone will like:

- Unlimited access to their doctor
- Extended, relaxed visits
- Same day and next day appointments
- Full access via technology: email, text, send pictures

Cost:

- \$49/month per adult (19 years and above)
- \$10/month per child 18 and under with an adult also signing up

What is included:

- Regular office visits
- Physical exams
- Chronic disease management
- Coordination with Specialists
- Blood pressure checks
- CDL physicals at reduced prices

What is not included:

- Labs, Medications, Radiologic studies – though we offer a low cost option
- Office testing – though reasonably priced
- Any services outside our office
- Insurance – you will still need your insurance
- Some procedures extra

Payment:

- Health savings account direct withdrawal
- Checking account direct withdrawal
- Credit card
- By check if paying for 6 months or more in advance

Dr. Paul Williams and Dr. Lisa Neff, are now taking patients. Their patient panel size will be limited to provide this personalized care.

Sign up now before patient lists fill up. You won't be billed before January 2015.
